General Comment:DO NOT TREAD ON THE INTERNET!!!!
Unless you are ready for the biggest backlash you could never imagine. This
proposed regulation smacks of partisan politics all meant to curb the mainly
conservative blogs and sites. Bloggers uncovered the Dan Rather scam and
helped
Bush win the election, now you want to bury us. I for one will say anything
and
endorse any one I see fit and screw anyone that tries to stop me and I am not
alone! Sounds like Soros is paying you guys off.
